## Definition of Management and leadership

There is an essential difference between **leadership** and **management** which is captured in these definitions: **Leadership** is setting a new direction or vision for a group that they follow, ie: a leader is the spearhead for that new direction. **Management** controls or directs people/resources in a group according to principles or values that have been established.

## Leadership

Leadership is both a research area and a practical skill, regarding the ability of an individual or organization to "lead" or guide other individuals, teams, or

entire organizations. Controversial viewpoints are present in the literature, among Eastern and Western approaches to leadership, and also within the West, on US vs. European approaches.
